

How we are Different from Corporate Dental Implant Centers like Clear Choice and Eon Clinics

As a clinician, my team and I feel that no one should die with their teeth in a glass next to their bedside. There is no excuse for this to happen TODAY! We live in a medically advanced world and there is no such thing as a HOPELESS case. There is a solution even for the most extreme cases with severe bone loss. We call it "No Jaw Bone Solution"™

"using Zygomatic (long) dental implants. We practice 21st century implant dentistry by providing Teeth-In-A-Day™ and Teeth-In-An-Hour™, using the All-On-4™ concept and Zygomatic dental implants for total rehabilitation cases. The All-On-4™ concept is a CLINICALLY proven permanent solution to missing teeth or people about to lose their teeth. We are the pioneers of 21st Century Implant Dentistry in the City of Chicago! The progress of today lets us take on any obstacle an oral rehabilitation patient may present.

Patients through the United States and the world have traveled to The Center to receive the care they need. Their care ranges from single tooth dental implants to the All-On-4™ procedure (teeth-in-a-day and teeth-in-an-hour) & Zygomatic implants (No Jaw Bone Solution™). They receive comfort, care, and the 21st century dentistry we all deserve. We have helped hundreds of patients return to proper chewing comfort, regain a smile they thought they had lost, and most importantly achieve a quality of life that everyone deserves. This is all done in a relatively short period following our outpatient procedures. They return home, a few miles away or thousands of miles away to the quality of life that is expected the following day.

We maintain a philosophy of respect and kindness that guides everything we do. We often take our sight or hearing for granted. However, the teeth are amongst the most complex parts of our body and loss of use is sorely missed and irreparable jaw bone damage may be sustained if specialized care is not received. We want you to receive specialized care from the beginning not just at the end.

Our emphasis is always on a minimally invasive approach, when possible, to maximize comfort and recovery time. Our ideal is to make available, to all, the specialized care of highly skilled and trained dental implant specialists and to help

others understand this specialized field through teaching. We are the leaders in total oral rehabilitation with dental implants in Chicago and in the region. Our message is seen on television, radio, newspapers, billboards, and magazines.

As the Implant specialist, owner, CEO, and the director of our facilities I want my patients to know that I will personally be involved in delivering clinical care along with my highly trained group of dentists and dental specialists. My philosophy is not be a hands off owner like Don Miloni DDS of Clear Choice and Rajan Sharma of EON clinics who are owners and entrepreneurs ONLY and have limited knowlege of what goes on on a daily basis to clinically deliver life changing dental implant care to their patients. I also believe in growing my dental business but I have an obligation to deliver my skills, care and judgment to my patients by rendering care to them along side with my team of doctors and professionals. My patients get my cell phone number after I perform surgical care on them. Does Don Miloni or Rajan Sharma provide their cell phone number to their patients? Call them and find out.

After your specialized dental implant care we will provide you with a life time of follow up care right here in our office so you don't have to go anywhere else. I look forward to providing the city of Chicago life time of excellent dental health that will look good, feel good and last a long time.

Sincerely

Irfan Atcha D.D.S, D.I.C.O.I, D.A.D.I.A
